-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Specification***

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: MODULE AND SMART POWER SUPPLY FOR VEHICLE ELECTRICAL SYSTEM.

### ***Claim Objections***

Claim 5 objected to because of the following informalities: the end of this claim states "the stand-alone operating system". To conform to the language of the other claims and prevent issues of antecedent basis, examiner suggests "the stand-alone operating mode". Appropriate correction is required.

Claim 18 objected to because of the following informalities: in its current form, this claim is not patently distinguishable from claim 5. Examiner believes claim 18 was intended to depend from claim 1. Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 1-4, 6-17, and 19-25 allowed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Art Unit: 2836

The following is an examiner's statement of reasons for allowance: in light of the special definitions for the control module and smart power supply, the prior art does not disclose the methods of cut-off and stand-alone operation as taught by the independent claims. The closest prior art, Mares (US 7,007,179), discloses load management in a vehicle. Load Management Modules may act in a stand-alone manner, but there is no suggestion that a data communication failure may bring about this state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sakamoto (US 6,900,555) discloses a power supply system for a vehicle. Fendt (US 6,070,114) discloses data transmission to chained devices. Arinobu (US 5,225,994) discloses supervisory control for plural distribution devices.

This application is in condition for allowance except for the following formal matters: see above objections to the title and claims 5 and 18.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
